Web Developer  
2019-2022

#### SMK Negeri 1 Gombong

Computer Engineering and Networking  
2016-2019

# DWI MISBACHUL MUNIR

### ABOUT ME

Hello, I'm a Developer. My journey as a Fullstack Web Developer began with my interest in solving problems. I have developed various applications, and one of my proudest achievements is being part of the best team in building a CRM application. I am always looking for ways to grow and learn new things.

### EXPERIENCES

#### PT Murni Development Indonesia (2024 - Present)

##### Fulltime Frontend Developer

- I develop digital signage web applications for banking and healthcare clients, build reusable frontend modules to speed up internal development, and contribute to the Cash Deposit Machine (CDM) interface using Next.js, TypeScript, and Tailwind CSS.

#### PT Teknologi Pelanggan Bahagia (2022 - 2024)

##### Woowa CRM - Fullstack Developer

- I work on the Chrome extension product named Woowa CRM, where I'm responsible for developing new features and fixing bugs. The tech stack includes Bootstrap, ReactJS, Node.js, Express.js, and Sequelize, with MySQL, Redis, and MongoDB for the database.

#### Hilotech Karya Anak Indonesia

##### Agensi Pemasaran Digital (Aug - Dec 2022)

##### Freelance - Frontend Developer

- As a Frontend Developer, I design the interface for the Muhammadiyah school data application, covering levels from kindergarten to higher education across Indonesia. I use React.js, TypeScript, and integrate with APIs.

#### Qodr Bee Berinovasi (2020 - 2022)

##### Full Time - Fullstack Developer

- I build applications from scratch using a variety of technologies, including PHP, JavaScript, Laravel, and MySQL, and deploy them to servers. I also handle maintenance and monitoring for the websites and applications I've developed.
- I meet with clients to discuss and plan projects, ensuring we develop useful websites and applications. Additionally, I share knowledge and insights with junior developers at QODR.

#### Saudi Telecom Company (Feb - Jul 2021)

##### Freelance - Backend Developer

- I automate processes to simplify network router and server configurations for STC employees, covering everything from Cisco to Palo Alto, using CodeIgniter and MySQL.
